

Job Title: Graduate Software Engineer

Salary: competitive

Company Information:

SCITEK Consultants Ltd are based in Derby and have been in business for 25 years. Our mission is to provide innovative R&D services to multiple industries to help develop and test our customers' products. Our past portfolio includes countless projects for key players in the Aerospace industry and we are now increasingly engaging in projects in renewable energy. We have a good reputation for delivering high quality work with a diverse range of technical knowledge.

To meet the increased demand within the UK and abroad the company is growing and looking to recruit talented and highly motivated engineers. The successful candidate will get the opportunity to work on all aspects of exciting, fast-paced projects, gaining valuable experience in a wide range of engineering areas.

Candidate requirements:

The candidate must be well organised, highly motivated, adaptable and keen to learn new disciplines with a minimum degree qualification or equivalent industry experience in software development. Experience with LabView and/or Python is essential. In general, the software will be used to control bespoke test equipment and enable our customers to achieve their complex engineering challenges. Understanding customer requirements and developing attractive user interfaces is important. Candidates with good communication and writing skills will be favoured.

It is also desirable for the candidate to be familiar with PLCs or National Instruments hardware and instrumentation. Familiarity with industrial sensors and COTS hardware will be an advantage.

The role

This is a multi-disciplined, diverse role, which drawing on your areas of specialism could include (but is not limited to):

- Software development for instrumentation and control systems
- Design and implementation of user interfaces
- Working from concept all the way through to system testing and delivery
- Working independently and as part of a team

Company benefits

- Friendly work environment
- Pension contributions
- Private medical cover
- 25 days annual leave + bank holidays + Discretionary Christmas shutdown
- 40 hour working week (office based) with flexible start/finish times, 8am – 4pm core hours
